How did you hear about Road Rat Motors? \_\_\_\_\_

Please describe the problem(s) you are having \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**(Optional)** If the repair estimate is below \$\_\_\_\_\_ then I don't require a call for estimate approval.

I understand that unless noted above, no work will be done until a verbal estimate has been given and approved. Using the optional approval above will allow the scooter repair to be completed as soon as possible. It is my responsibility to ask for a written estimate should I require one. Road Rat Motor's current labor rate is \$50/hour.

Road Rat Motors will call to inform you once your scooter is ready to be picked up. A \$10/day or \$50/month (whichever is less) storage fee will be added to your bill after 7 days if:

- \* Work is completed and scooter is not picked up
- \* You are supplying parts and we have not received them
- \* Decline work to be done and the scooter is not picked up
- \* Do not respond to calls after an estimate is ready

Please call for approval for circumstances that do not allow you to adhere to this policy.
